www.emapsproject.com**COPING WITH
VULNERABILITY
TO CLIMATE CHANGE**

AMSTERDAM, 24-28 MARCH 2014

A list of 74 NGO websites was created based on shared members between the Climate Action Network and TCKTCKTCK. Searching manually through the NGO's missions and agendas delivered 279 issues. By testing the resonance of the issues, an issue agenda with main issues, sub-issues and main actors was created. This map shows the twenty main issues based on the frequency of their appearance among the 74 NGO's.

MAPPERS:

Cristel Kolopaking, UvA
Emilio Patuzzo, Politecnico di Milano
Erik Borra, UvA

Kristina John, UvA
Niklas Johannes, UvA
