EMAPS **COPING WITH VULNERABILITY TO CLIMATE CHANGE**
 www.emapsproject.com AMSTERDAM, 24-28 MARCH 2014

A list of 74 NGO websites was created based on shared members of the Climate Action Network and TCKTCKTCK. Searching manually through the NGO's missions and agendas delivered 279 issues. By testing the resonance of the issues, an issue agenda with main issues, sub-issues and main actors was created. The Issue Agenda shows the nine main issues and their sub-issues with the size of the circles and slices showing the frequency of their appearance.

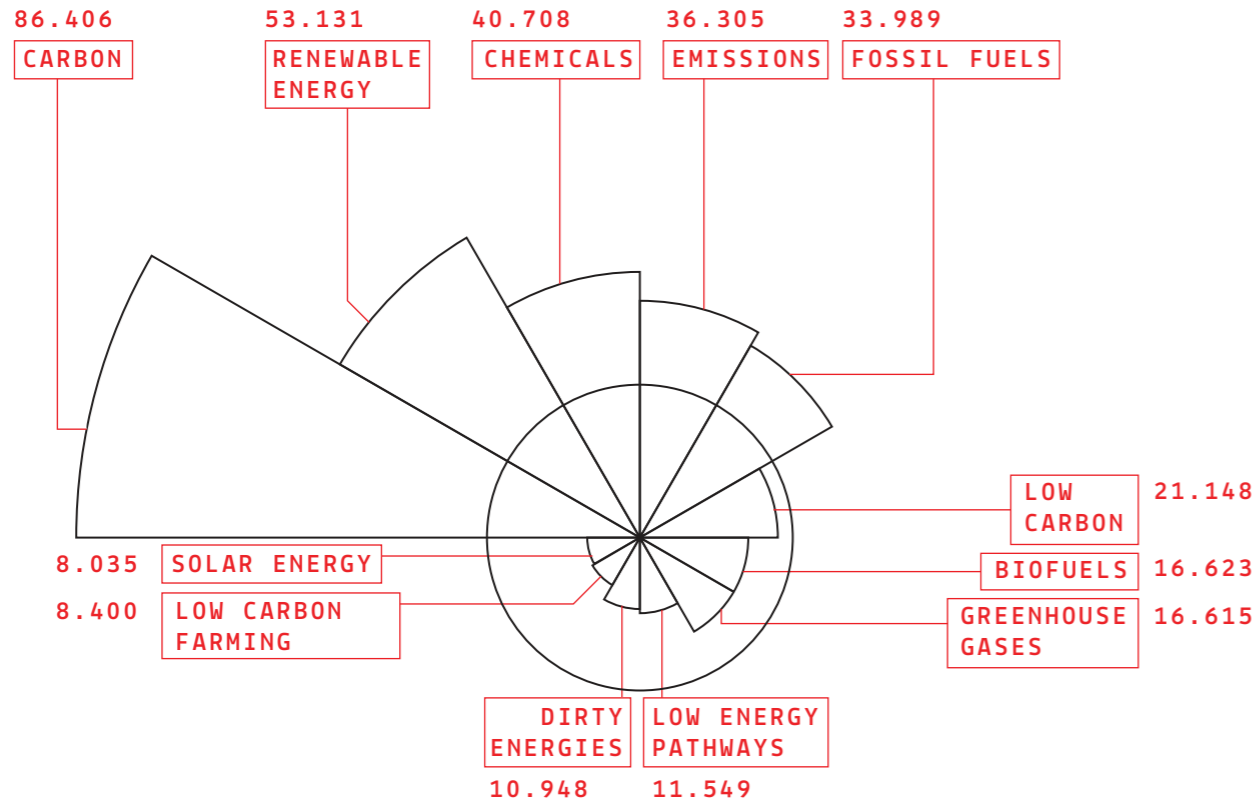

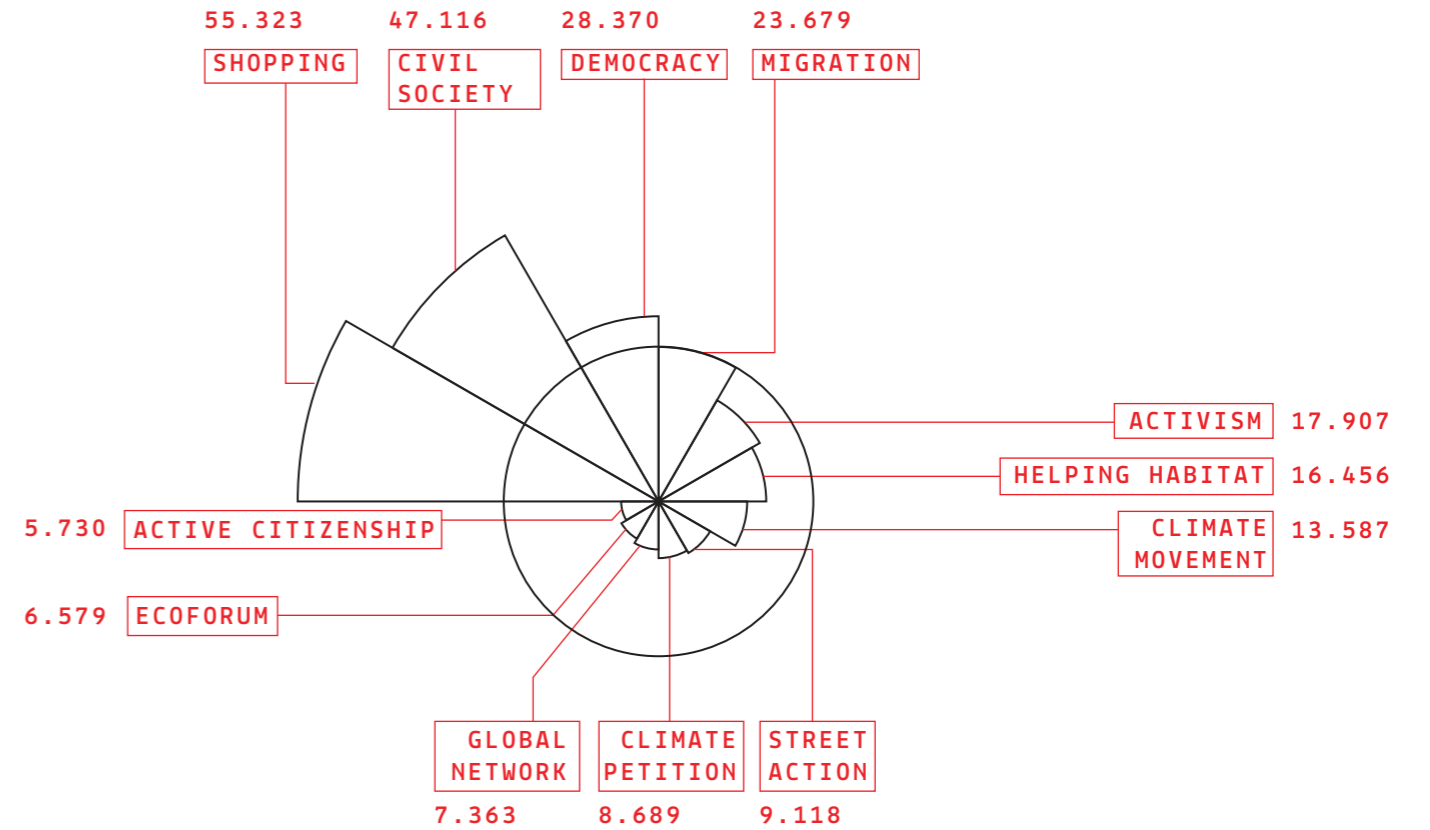

MAPPERS:
 Cristel Kolopaking, UvA Kristina John, UvA
 Emilio Patuzzo, Politecnico di Milano Niklas Johannes, UvA
 Erik Borra, UvA
